

**2603 RED ELECTRONIC SOUNDER (SQUARE RECESSED)****APPLICATIONS**

The 2603 Square Electronic Sounder is coloured red and is suitable for use in hotel bedrooms or other areas when unobtrusive installation is important. The unit is supplied ready for fitting to a single gang deep installation box, or a matching surface mounting box can be supplied as an optional extra.

**FEATURES**

- Full System Compatibility
- Electronics Encapsulated
- Ultra-Slim Profile
- Low Current Consumption
- High Sound Output
- Adjustable Volume
- Flush or Surface Mounting

**OPERATION**

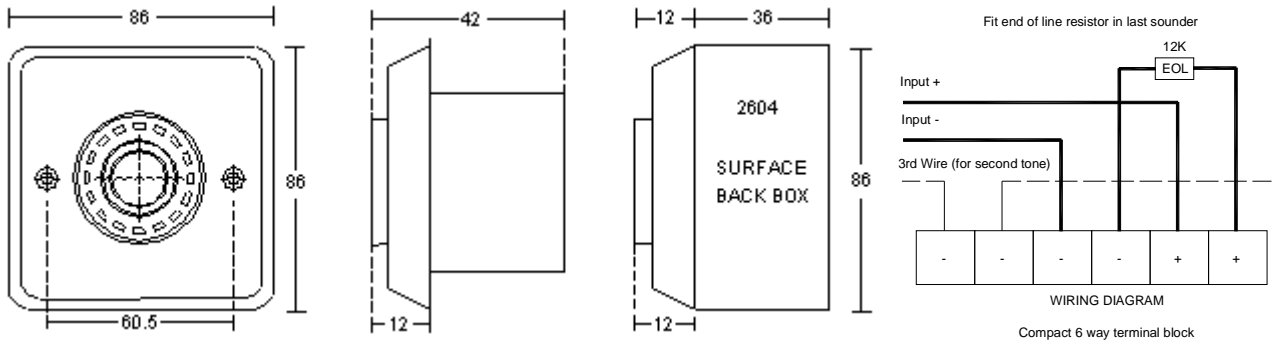

A 2603 Red Electronic Sounder (Square Recessed) has a high sound output, low current consumption and is continuously rated. The sounder meets the recommendations of BS5839 Part 1 2002.

A second tone is available if a third wire is installed in the sounder circuit, depending upon the type of control equipment used.

Surface cabling can be accommodated through the matching surface back box or when flush fitting a deep single gang box with a minimum depth of 36mm is required to allow for wiring termination clearance.

This sounder is also supplied in white. See ordering detail on the rear of this sheet.

**APPROVALS** : Tested and approved to BS5839 Part 1 by the Loss Prevention Council

**SPECIFICATION**

<b>Order Code</b>	2603
<b>Operating Voltage</b>	9V – 28V DC,
<b>Current Consumption</b>	18mA at 24V DC
<b>Operating Temperature</b>	-25°C to +70°C
<b>Sound Output</b>	97dBA at 24VdC
<b>Line Monitoring Method</b>	Polarised Input
<b>Colours</b>	Red (White Ref 2605)
<b>Weight</b>	1.09 Kg
<b>Dimensions</b>	86 H x 86 W x 42 D
<b>Ingress Protection</b>	IP54
