

5061 METAL BODY INTERIOR LUMINAIRE RECESSED (SLAVE/MAINS)**APPLICATIONS**

The 5061 Metal Body Interior Luminaire Recessed (Slave/Mains) is a sturdy general purpose luminaire and is suitable for many internal emergency lighting applications. It is ideal for emergency escape routes in hotels, restaurants, hospitals, schools and commercial premises.

**FEATURES**

- Opal Formed Diffuser
- Prismatic Diffuser also available
- Slim Profile Ceiling Plate
- Easy installation
- Reliable
- Non-Recessed and Semi-Recessed versions are available
- Choice of Ceiling Plate Finishes
- 3 Hour Emergency Luminaire
- Designed to Comply with ICEL and British Standards

OPERATION

The 5061 Metal Body Interior Luminaire Recessed (Slave/Mains) is illuminated by an 8 watt fluorescent lamp, powered via a Central Battery System. In the event of a mains failure, emergency illumination is provided for 3 hours. The AC/DC Slaves are available as 24 volt, 50 volt, 110 volt and 230 volt versions, with the latter suitable to work direct from the mains. Note, the mains version can not provide emergency illumination backup in the event of a mains failure. A self-contained version of the luminaire is also available (Ref 5060).

A strong Opal formed Diffuser Insert Plate comes as standard, with a Prismatic Diffuser available as an alternative. Optional Brass and Chrome ceiling plate finishes provide luminaires suitable for any high décor areas.

There is a wide range of ancillary devices and related products which supplements this emergency lighting luminaire range.

APPROVALS : Designed to conform to ICEL 1001: 1999 and BS EN 60598-2-22 1999
