OPERATION

The 5411 Emergency Exit Sign 24m Viewing Double Sided (Slave/Mains) is illuminated by an 8 watt fluorescent tube, powered via a Central Battery System. In the event of a mains failure, emergency illumination is provided for 3 hours. The AC/DC Slaves are available as 24 volt, 50 volt, 110 volt and 230 volt versions, with the latter suitable to work direct from the mains. Note, the mains version can not provide emergency illumination backup in the event of a mains failure. A self-contained version of the exit sign is also available (*Ref 5410*), as is a single sided model (*Ref 5401*).

The 5411 consists of a strong white steel enclosure which allows for simple exit legend assembly, ensuring ease of installation. An optional brass finish enclosure is available to provide an aesthetically pleasing exit sign for high décor areas. A variety of legends kits are available to be supplied with this unit (*please specify on order*), allowing for versatility of application and installation.

There is a wide range of ancillary devices and related products which supplements this emergency exit sign range.
